### Product information

The induction-hardened, solid steel cutting rollers guarantee durability.

Reusable cardboard box as bin for shredded material.

The full bin is indicated via the display and the machine switches off automatically.

### For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

### Energy-saving

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

### High level of user safety

The safety element prevents unintentional entry of materials into the machine and thereby increases the user safety.

### Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

### Anti-paper jam function

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

### Convenient emptying

Robust wooden cabinet with castors. After opening the door, the reusable collecting bag can be easily removed and emptied.
