

HSM ProfiPack P425 Packaging machine

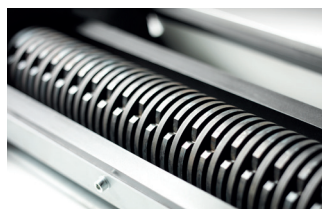

Model available from June 2018!
More information at:
www.hsm.eu/ProfiPack

From waste to packaging material

Used cardboard is made into high-quality packaging material.

Specially hardened solid steel cutting rollers

Specially hardened HSM cutting rollers ensure absolutely precise cutting.

This high-performance packaging machine is used to process a number of layers of cardboard into a padding mat or padded filling material. The professional device is mobile on steering rollers and can be used with total flexibility.

- High quality materials and „Made in Germany“ quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Powerful, efficient drive concept allows continuous operation.
- Particularly sustainable operation due to the high efficiency.
- Fully flexible feed speed adjustment.
- Adjustable cushioning volume of the packaging material.
- Infinitely adjustable working width with scale for cushioning material made to measure.
- Intuitive operation with LED indicators on robust keypad.
- The integrated turbo-function resolves blockages.
- User safety through emergency off switch.
- Mobile on castors, with parking brake.

Article number	1531154	Noise level (idle operation)	59 dB(A)
EAN	4026631062596	Driving power	1.4 kW
Scope of application	Stand-alone device	Voltage	230 V
Intake width	425 mm	Frequency	50 Hz
Infeed/Loading height	20 mm	Width x Depth x Height	770 x 570 x 1040 mm
Cutting capacity	up to 3 layers	Weight	170 kg
Cutting speed	235 mm/s	Colour	light grey/iron grey
