PHYSICAL
CRUSHER
AND
DESTROYER

The high-speed, high-powered intimus 360 Destroyer is the fastest and lightest NSA/CSS EPL-listed hard drive destroyer on the market. The intimus 360 Destroyer meets evolving technology challenges by increasing the speed, amplifying the crushing power and offering a solid-state destroyer that both perforates and waffles solid-state media, flash drives, USB thumb drives, and SSHD controller boards. HDDs are bent by the intimus 360 Destroyer. It is best to combine the Destroyer with a Degausser for a full solution for high security requirements. Security level H3* for standalone application.

FEATURES

- Now with more robust crush chamber
- Listed on NSA/CSS evaluated products list
- Bends, breaks, and mangles hard drives, including dataplatters and other internal components, preventing data recovery
- Destroys solid-state media, flash drives, USB thumb drives, and SSHD controller boards
- Independently tested and certified to meet CE directives for safety, compatibility, and interference
- Lightest electric destroyer on the market
- Crushes multiple drives at a time
- Quiet, office-friendly design
- No hydraulics
