CORRECT power supply must be available on day of installation

The following machines require a three phase power supply as specified below

- SP4040V (FA400 + 40VL)** 32amp, 5 pin, Motor Rated Circuit Breaker, Type 4 or Class D
- SP5080 (FA500 + KP80)** 32amp, 5 pin, Motor Rated Circuit Breaker, Type 4 or Class D
- SP5088 (FA500 + KP88)** 32amp, 5 pin, Motor Rated Circuit Breaker, Type 4 or Class D

Machine model ordered

Please note: Our standard delivery charges are for ground floor delivery only where a fork lift truck is available. Additional charges will be applied where a forklift truck is not available, if machine is to be situated on any other floor or the delivery address has any restrictions to entrance of the building.

Machine Weight - **SP4040V (FA400 + 40VL)** Machine weight 737kg (does not including packaging)
SP5080 (FA500 + KP80) Machine weight up to 1480kg (does not including packaging)
SP5088 (FA500 + KP88) Machine weight up to 1790kg (does not including packaging)

Unloading -

Forklift truck available Yes No
Unloading area available Yes No Must be no access/parking restrictions
Pallet truck available Yes No Needs to be 2 tonne minimum (narrow forks)
Can the customer off load machine and put into required position Yes No

Please note - All SP Combination machines arrive on a flat bed/curtain sided vehicle, if you do not have a forklift truck available, off loading can be arranged by HSM at an additional cost (cost dependant on site and off loading requirement)

Access to building -

Is the machine to be sited on the ground floor Yes No

If other than ground floor please state which floor

Are there are steps/stairs at entrance of building or en-route to machine site?
.....

If other than ground floor is there a lift suitable to carry machine ordered?
.....

Will the machine ordered fit through all doors Yes No

Please note - Machines will not fit through a standard door, entrance requirements are up to 900mm x 500mm x 2032mm

I can confirm that all of the above has been checked and is satisfactory for the machine to be delivered and installed.

I agree that should any of the above not conform to the requirements and the machine is not able to be installed as planned we will pay an additional charge of £250 (two hundred and fifty pounds) to cover the costs of rearrangement of the installation.
