

Mercury RSS2232 Shredder

2102463

Overview

Smart, space saving small office shredders
Unique Mercury anti-jam technology prevents paper jams

Description

Protect your confidential and valuable information from being stolen by shredding any documents that may put your business at risk from identity fraud. The Rexel Mercury RSS2232 small office shredder is an ideal space saving desk side model and has a S2 security level which shreds paper into ribbon cut particles (sized 5.8mm), making it ideal for everyday shredding.

Paper jams in a shredder are time consuming, frustrating, messy and sometimes costly. With the RSS2232 shredder, paper jams are a thing of the past. Featuring the revolutionary Mercury jam free technology, the RSS2232 has a unique brightly lit LED indicator that warns you whether you are trying to feed too much paper into the shredder in one go. The red light means there is too much paper and a green light means that there is no risk of jamming.

The RSS2232 is an ultra quiet, general use shredder that can shred up to 23 sheets of 70gsm paper in a continuous single feed as well as CD's, credit cards, paperclips and staples. Specifically designed for regular shredding, it features a 32 litre large capacity waste bin that holds up to 250 sheets of paper. The front opening waste bin enables simple and mess free emptying and the shredder cuts off automatically when the bin is full. The RSS2232 goes into power saving mode after 2 minutes of non use, making it an ideal choice for the environmentally friendly office. Optional 32 litre paper waste sacks are available to encourage recycling of the shredded paper. With a clear, easy to use control panel and a CD tray to separate out waste for recycling, the stylish RSS2232 is a practical choice for a busy office worker who requires a smart, space saving shredder by their desk side.

Weighing 20.3kg and sized at 584(H) x 270(W) x 535(D)mm, the RSS2232 comes with the extra peace of mind of a 2 year warranty, an extended 10 year warranty on the cutters plus it is compliant with finger safe international standards and is TUV and CE compliant.

Overview

Smart, space saving small office shredders
Unique Mercury anti-jam technology prevents paper jams

Description

Protect your confidential and valuable information from being stolen by shredding any documents that may put your business at risk from identity fraud. The Rexel Mercury RSX1632 small office shredder is an ideal space saving desk side model and has a S3 security level which means that it shreds paper into unreadable confetti style particles (sized 4 x 45mm) making it ideal for sensitive data.

Paper jams in a shredder are time consuming, frustrating, messy and sometimes costly. With the RSX1632 shredder, paper jams are a thing of the past. Featuring the revolutionary Mercury jam free technology, the RSX1632 has a unique brightly lit indicator, next to the paper entry feeder that warns you whether you are trying to feed too much paper into the shredder in one go. A red light indicates too much paper and the green light means there is no risk of jamming.

The RSX1632 is an ultra quiet, general use shredder that can shred up to 17 sheets of 70gsm paper in a continuous single feed as well as CD's, credit cards, paperclips and staples. Specifically designed for regular shredding, it features a 32 litre large capacity waste bin that holds up to 300 sheets of 70gsm paper. The front opening waste bin enables simple and mess free emptying and the shredder cuts off automatically when the bin is full. The RSX1632 goes into power saving mode after 2 minutes of non use which reduces any unnecessary power usage making it an ideal choice for the environmentally friendly office. With a clear, easy to use LED control panel the stylish RSX1632 is a great choice for a busy office worker who requires a shredder by their desk side.

Weighing 23.3kg and sized at 584(H) x 270(W) x 535(D)mm, the RSX1632 comes with the extra peace of mind of a 2 year warranty, an extended warranty on the cutters plus it is compliant with finger safe international standards and is TUV and CE compliant.
